Michal,

Here is a revised response to Congresswoman Johnson's correspondence on Chlorpyrifos, both a redline and clean file. We are still working on adding asbestos language to the response to the private citizen that you previously reviewed at the same time as this one.

Please let Mary and me know if this revised response is okay to prepare for your signature.

Thanks,  
Jonah

Michal,

Attached for your review are draft responses to Congresswoman Johnson and a private citizen regarding chlorpyrifos. The response to the private citizen is a direct reply, but we would like your approval on the language. The communications team intends to use this response as a template for the 3-4 additional inquiries we have regarding chlorpyrifos.

Also attached are the incoming letters from Congresswoman Johnson and the private citizen. The private citizen inquiry also raises asbestos and I am following up about addressing that, but would still like your concurrence in the meantime because the response will be used for the other chlorpyrifos inquiries.

Please let me know if you have any questions or comments.

Thanks,  
Jonah
